The screenshot shows a web browser window displaying the website [https://industrial-tourism.eu/where-to-go/events/?tx_inducult_icmaplist\[events\]=59&tx_inducult_icmaplist\[events\]=59](https://industrial-tourism.eu/where-to-go/events/?tx_inducult_icmaplist[events]=59&tx_inducult_icmaplist[events]=59). The page features a navigation menu with 'HOME', 'WHERE TO GO?', 'REGIONAL PROFILES', and 'INDUSTRIAL TOURISM'. The main content area is titled 'Open Factory' and includes the following details:

From: Mon 26 November | 2018
To: Mon 26 November | 2018

"Open Factory" is the most important event regarding the industrial and manufacturing culture of North-East Italy: an initiative, in its third edition in 2017, which aims to open to the public a hundred businesses in the Veneto territory, to tell the story, unveil the secrets and be a showcase to describe the Italian and Veneto manufacturing capacities.

Every year some categories are identified - mechanics and robotics, design, food & wine, services, infrastructures - and special sections - open sites and open labs - that lead to the creation of as many thematic itineraries for visiting and "discovering" the territory and the entrepreneurial patterns of North-East Italy.

Open Factory becomes a presentation of manufacturing sites, districts and supply chains of high quality and importance, effective also after the conclusion of the initiative and structuring itself in a constant activity of promotion of manufacturing tourism, also through the guide realized every year.

The right side of the page features a Google Map of the Veneto region, showing cities like Treviso, Padua, and Verona. Below the map, there is a social sharing section with buttons for Facebook, Twitter, Google+, and Email. The event organizer is listed as 'Veneziepost' with the website www.openfactory.it.

Result: Regional Actions + Transnational Exchange

Fostering identity and tourism

Adapting/ binding labour force

Reviving pioneer spirit and creativity
